

It's time to train like a pro!

**JEANNE HARTMAN ACTOR'S DETECTIVE PRESENTS
NEW WORKSHOPS IN HONG KONG
NOVEMBER/DECEMBER 2017**

WHAT MAKES YOU A PROFESSIONAL?

Your job as a professional actor is to:

- **Make me believe you!**
- **Make me care about you!**
- **Make me want to spend time with you**

You as a pro are prepared for anything that faces you.

You as a pro need to practice your technique until you "own" it.

You as a pro always know you are the one that works harder than anyone else.

You as a pro know your job and how to do it well, but always want to grow and be better.

JEANNE HARTMAN returns to Hong Kong to teach her Professional Acting Intensive Workshops. Each workshop spans two days or three evenings, where you will identify what is missing in your technique and learn new ways to improve as a professional actor, performer and speaker.

Ms. Hartman coaches actors to not only learn the techniques that work but also trains actors how to identify when they are faced with a problem and how to fix it --- all by yourself!

According to Ms. Hartman: "In most academic type classes, you learn what works in the classroom with a teacher and a learning atmosphere, but it's very different out in the working world. In my workshops, we simulate what might happen to you in a professional situation and how to solve your problem – how to perform at your highest level even when you get very little help."

The Actor's Detective

You as a **Professional Actor** need to be an expert at what you do and know how to accomplish your job. You need to prepare for each job, audition, or interview.

IF they pay you --- you are a professional.

IF they pay you --- you need to be an expert at what you do.

IF you WANT them to pay you --- you need to show them, you are an expert.

In Ms. Hartman's Professional Acting Workshops you will:

- Discover Secret Professional Tricks and Short Cuts to help you create a believable, exciting character quickly.

- Identify the Difference between a good audition and a great audition.

- Practice techniques that will make you stand out.

- Learn how to truly analyze a script so that you bring it alive in your performance.

- Practice the different requirements of a Professional Actor:

- Live Auditions
- On-camera video technique
- Scenes with other characters
- Exercises to strengthen your skills
- Identify and remove bad habits

- **CREATE YOUR OWN ACTOR TOOLBOX**

And remember to Breathe!

Upcoming Dates and Sign up information for Ms Hartman's Hong Kong Workshops go to: **UPCOMING WORKSHOP** page on this website.

Jeanne Hartman offers private sessions while she is in Hong Kong. Contact her for her private session availability.
